Company Profile

Metexim Technologies is a software solutions development company with development center in India. The range of services that we offer include enterprise software applications development and maintenance, website and web applications design, development and maintenance.

Metexim's understanding of current and emerging business domains that create new avenues for the innovative application of IT solutions is one of the vital strengths the team at Metexim strives to continually increase. With Metexim, software development becomes easy and reliable, because we are a dependable company and we always support the customer with all our efforts. We bring exceptional value to our clients through lowered cost of software development services, outstanding quality and reliable customer service. The key highlights of our development strength are:

- ❖ Metexim's technology intelligence maturity as well as the capability of continuous process improvement is a key to meeting clients' requirements within the shortest possible time frame.
- ❖ Metexim's talented pool of software engineers and high technology infrastructure at the development center in India are providing substantial support in providing timely services to the global clientele. As a result the clients are able to get the maximum cost advantage since Metexim development practices are focused on maximizing performance of various stages of software development lifecycle to directly arrive at a favorable cost structure for the client.
- ❖ Assigning a dedicated team of professionals to each and every project with a clear objective in mind, has nurtured a definitive corporate culture at Metexim. Applying simple principles of teamwork, open, honest communication and commitment to getting a job right holds the essence of what we believe as guiding principles of the company. Some may call it a solid work ethic, however, we like to believe it carries weight, which is why Metexim stands by each and every project it undertakes.

By integrating planning, design and comprehensive project management, Metexim offers strategic solutions and proven experience in various domains and verticals like manufacturing, content management, E-Learning, and Financial Reporting.
